For Official Use Only

Hi David,

Sorry the week has gotten away from me and I didn't follow this up with you earlier.

I am still keen to discuss the below with you, so if you do have time next week and you could please let me know, that would be great.

Thanks

Bec

Rebecca, currently in the field. Should be able to find some time next week. Will not know until early next week when I am free. David

Hi David,

Hope you are well. Wanted to touch base with you to see whether you had any capacity to meet to discuss a number of things which have arisen here, including:

- Feedback on the MDBA Ruppia trajectory modelling undertaken by Deakin University;
- Update on the expert elicitation process that was undertaken for the development of expected environmental outcomes for a subset of targets from the River Murray Long-Term Watering Plan, and to seek your input on the CLLMM waterbird and Ruppia targets and how we may proceed with these; and
- Discuss with you the feedback we have received from DoEE regarding the bird Limits of Acceptable Change (LAC) within the ECD, and their proposed approach of these LAC.

If you had any capacity to catch up next week about these that would be great if not please let me know what would suit you best.

Thanks

Bec
